

HOW TO SUPPORT US

## Four concrete ways.

### Open donation

Bank transfer with any reference. Tax-deductible under art. 83 of Italian Legislative Decree 117/2017.

### Italian 5x1000

Enter the tax code in your Italian income tax return. Nothing owed, everything added.

### Renovation of the building

An offer has been made on the building that will host the future training restaurant. The renovation is the first concrete step to support.

### Volunteering

Workshops, summer camp, transport support. Ask us how to get involved.

## THE STORY

# From pain, a responsibility.

Villaggio di Alberto is born from a true, lived experience — one that turned pain into responsibility. It is a place that takes shape from the memory of Alberto Lerza, and from the awareness that even a brief life can leave a lasting impact.

---

«Pain transformed  
into responsibility.»

## THE PILLARS

### Four services, one single home.

- I.** **A home for those who arrived alone.**  
*There are children who cross seas and borders carrying only their name. Here they find a bed of their own, a slower time, and someone who learns to pronounce it well.*
- II.** **A trade learned by cooking for those who come to visit.**  
*Not a pretend workshop. A real restaurant, open to the public, where the young people of the residence learn a profession by serving real people, on real time.*

## THE PILLARS

*continues...*

- III.** **Kindness is learned with the hands.**  
*Spaces open to those who usually stay out: people with disabilities, lonely elders, young people of the residence, children from the neighbourhood.*
- IV.** **The Summer Camp of kindness.**  
*So that the children of this area grow up knowing that a kind word is not weakness. It is the strongest thing we have.*
